

**Table C-7. Key Question 1, Form 7: quality of life outcomes (estimating up to 2 QOL measures reported in a single study)**

| Variable Name                         | Variable Type | Answer Code | Answer Code Label  |
|---------------------------------------|---------------|-------------|--|
| Quality of life scale, arm 1a         | Radio         | 1           | Greene total score   |
|                                       |               | 2           | MENQOL total score   |
|                                       |               | 3           | Kupperman total score  |
|                                       |               | 4           | MQOL overall qol   |
|                                       |               | 5           | WHQ total score  |
|                                       |               | 6           | SF-36 total score  |
|                                       |               | 7           | Other  |
| QOL other scale description, arm 1a   | Text          |             |  |
| QOL baseline mean, arm 1a             | Text          |             |  |
| QOL baseline sd, arm 1a               | Text          |             |  |
| QOL baseline CI lower bound, arm 1a   | Text          |             |  |
| QOL baseline CI upper bound, arm 1a   | Text          |             |  |
| QOL 12-wk mean, arm 1a                | Text          |             |  |
| QOL 12-wk sd, arm 1a                  | Text          |             |  |
| QOL 12-wk CI lower bound, arm 1a      | Text          |             |  |
| QOL 12-wk CI upper bound, arm 1a      | Text          |             |  |
| QOL 12-wk pre-post p-value, arm 1a    | Text          |             |  |
| QOL 12-wk between grp p-value, arm 1a | Text          |             | (Not present for arm 1, but is for arm 2-6)                                      |
| QOL last mean, arm 1a                 | Text          |             |  |
| QOL last sd, arm 1a                   | Text          |             |  |
| QOL last CI lower bound, arm 1a       | Text          |             |  |
| QOL last CI upper bound, arm 1a       | Text          |             |  |
| QOL last pre-post p-value, arm 1a     | Text          |             |  |
| QOL last between grp p-value, arm 1a  | Text          |             |  |
| Specify difference                    | Radio         | 1           | Difference in post-test from placebo (Not present for arm 1, but is for arm 2-6) |
|                                       |               | 2           | Difference between changes (delta)   |
| QOL difference from placebo, arm 1a   | Text          |             |  |
| QOL diff CI lower bound, arm 1a       | Text          |             |  |

| Variable Name                         | Variable Type | Answer Code | Answer Code Label  |
|---------------------------------------|---------------|-------------|--|
| QOL diff CI upper bound, arm 1a       | Text          |             |  |
| QOL diff p-value, arm 1a              | Text          |             | (Not present for arm 1, but is for arm 2-6)                                      |
| QOL mean change score, arm 1a         | Text          |             |  |
| QOL mean change std dev, arm 1a       | Text          |             |  |
| QOL other outcome, arm 1a             | Text          |             |  |
| QOL comments, arm 1a                  | Text          |             |  |
| Quality of life scale, arm 1b         | Radio         | 1           | Greene total score   |
|                                       |               | 2           | MENQOL total score   |
|                                       |               | 3           | Kupperman total score  |
|                                       |               | 4           | MQOL overall qol   |
|                                       |               | 5           | WHQ total score  |
|                                       |               | 6           | SF-36 total score  |
|                                       |               | 7           | Other  |
| QOL other scale description, arm 1b   | Text          |             |  |
| QOL baseline mean, arm 1b             | Text          |             |  |
| QOL baseline sd, arm 1b               | Text          |             |  |
| QOL baseline CI lower bound, arm 1b   | Text          |             |  |
| QOL baseline CI upper bound, arm 1b   | Text          |             |  |
| QOL 12-wk mean, arm 1b                | Text          |             |  |
| QOL 12-wk sd, arm 1b                  | Text          |             |  |
| QOL 12-wk CI lower bound, arm 1b      | Text          |             |  |
| QOL 12-wk CI upper bound, arm 1b      | Text          |             |  |
| QOL 12-wk pre-post p-value, arm 1b    | Text          |             |  |
| QOL 12-wk between grp p-value, arm 1b | Text          |             | (Not present for arm 1, but is for arm 2-6)                                      |
| QOL last mean, arm 1b                 | Text          |             |  |
| QOL last sd, arm 1b                   | Text          |             |  |
| QOL last CI lower bound, arm 1b       | Text          |             |  |
| QOL last CI upper bound, arm 1b       | Text          |             |  |
| QOL last pre-post p-value, arm 1b     | Text          |             |  |
| QOL last between grp p-value, arm 1b  | Text          |             |  |
| Specify difference                    | Radio         | 1           | Difference in post-test from placebo (Not present for arm 1, but is for arm 2-6) |
|                                       |               | 2           | Difference between changes (delta)   |
| QOL difference from placebo, arm 1b   | Text          |             |  |
| QOL diff CI lower bound, arm 1b       | Text          |             |  |
| QOL diff CI upper bound, arm 1b       | Text          |             |  |
| QOL diff p-value, arm 1b              | Text          |             | (Not present for arm 1, but is for arm 2-6)                                      |
| QOL mean change score, arm 1b         | Text          |             |  |
| QOL mean change std dev, arm 1b       | Text          |             |  |
| QOL other outcome, arm 1b             | Text          |             |  |
| QOL comments, arm 1b                  | Text          |             |  |
